LEK-AM OFFER

**LEK-AM Pharmaceutical Company Ltd.** is expanding both on the **Polish** pharmaceutical market as well as on **international markets**. LEK-AM combines a homogeneous product portfolio, efficient leadership and highly skilled employees, that allows the company to quickly gain recognition in the pharmaceutical industry.

Presently LEK-AM is one of **the fastest growing pharmaceutical companies** in Poland. A rapid rate of growth in terms of sales and revenues, combined with a **top quality of products** offered, has turned LEK-AM into **phenomenon** on the market. **After 13 years** of existence we were among **the TOP 10 companies on the Polish pharmaceutical market** (based on IMS Data). LEK-AM's products have been rewarded and honored with prestigious awards granted by both consumers and the medical community.

Our product portfolio is made up of a carefully selected Over The Counter (**OTC**), Prescription Medicines (**Rx**) as well as Food Supplements (**FS**), Medical Devices (**MD**) and Cosmetics (**COS**). Our products have been on the Polish market since the year 2000. They entered international markets in 2007.

LEK-AM has currently a very strong position **in many therapeutic fields** and production and sales grow rapidly. We launched or developed products belonging to the following therapeutic areas:

- Psychiatry
- Urology
- Respiratory
- Cardiology
- Gastroenterology
- Hormones
- Alergology
- Antibiotics
- Neurology

**The essential feature of LEK-AM's products is their high globally recognized quality.**

**All LEK-AM products meet strict quality requirements set by the European Union.** Our production methods hold the **GMP** (Good Manufacturing Practice) certificate whereas the ingredients for our clinical tests all abide by **GLP** (Good Laboratory Practice) guidelines and Quality Management Systems **ISO 9001:2008** and some products meet all the legal requirements for the **CE marking**. What is more, all dossiers of our medicinal products have been prepared in **CTD** format (Common Technical Documentation).

All of the above has only one goal – to meet the constantly rising demand for LEK-AM products. What is more important, each increase in **our production capacity goes hand in hand with the introduction of the most up-to-date technologies.**

LEK-AM's production facilities are located in Zakroczym near Warsaw, the capital of Poland. The production plant together with commercial office located in Warsaw make up LEK-AM.

The plant seats the production lines and laboratories where **world class generic medications are developed.** All medicinal products available in our portfolio have been proudly developed by our in-house **R&D department.**

**We owe our success to our people** – their knowledge, experience, talent, creativity and commitment to the company. All of our promotional and informational activities are conducted by a team of highly qualified specialists. Presently, LEK-AM employs around 500 people. **The company's employees have always abided by a number of values among which honesty, credibility, trust, quality and ethical behavior are at the forefront.**

In the near future we are planning on combining our R&D activities together with in-licensing opportunities. This will allow us to **deliver many world class medicines in a short period of time.** In-licensing opportunities will enable us to present patients and the medical community with a wide selection of new products while still developing them in our own dossier.

All of LEK-AM's efforts have only one aim – to **supply our clients with the best possible products.** We are aware that LEK-AM wouldn't be one of the leaders of the Polish pharmaceutical market if it was not for **top quality medicines offered at very reasonable prices.**

Dynamic development on the Polish pharmaceutical market and a significant increase in the range of products offered, sparked our interest in **foreign markets.** LEK-AM is actively developing the markets in the **Middle East, Europe, Asia, Africa, Americas and Australia.** We have **Representative Offices** as well as we cooperate with many **business partners around the World.** The **Department of International Markets would like to double our turnover in the next few years.**

# RX MEDICATIONS (RX)

RX MEDICATIONS (RX)

**ALERMED**  
(Cecirizini dihydrochloridum)

foramed   
formoterol fumarat anhydrous

*androstatin*  
finasteridum

**Memolek**  
Memantini hydrochloridum

**Aripilek**  
aripiprazol

Montelukast LEK-AM

Budezonid LEK-AM  
(Budesonidum)

Cilostazolium  
**Cilostazol** LEK-AM

**Nobaxin**  
Azithromycinum

**Clopidix**  
(Clopidogrelum)

**Olzapin**  
(Olanzapinum)

**Contix**  
Pantoprazolum

Acidum alendronicum  
**OSTOLEK** **70 mg**

Corator **Corator**  
Atorvastatinum

pulmoterol   
(Salmeterolum)

**Escitalopram Lekam**  
(Escitalopramum)

**Risperon**  
(Risperidonum)

**finaster** finasteridum

**TRIMEDUCTAN MR**  
(Trimetazidin dihydrochloridum)

## **ALERMED**

(Cetirizini dihydrochloridum)

Strength and size: 10 mg x 20, 30 tablets

### ■ **Alermed**

*Cetirizini dihydrochloridum*

■ ATC: R06AE07 (Antihistamines Systemic)

### ■ **I N D I C A T I O N S :**

Symptomatic treatment of chronic and seasonal allergic rhinitis (hay fever), allergic conjunctivitis, chronic idiopathic urticarial.

**androstatin**  
*finasteridum*

Strength and size: 1 mg x 28 film coated tablets

■ **Androstatin**  
*Finasteridum*

■ ATC: D11A0 (Other dermatological prep)

■ **INDICATIONS :**

Androstatin is indicated in the treatment of male pattern baldness (androgenetic alopecia). It boosts hair growth and prevents its further loss. Androstatin is not intended for use by women and children.

**Aripilek**  
tabletki      Aripiprazolum

Strength and size: 5, 10, 15, 30 mg x 28 tablets

■ **Aripilek**  
*Aripiprazolum*

■ ATC code - N05AX12 (Nervous System)

## ■ INDICATIONS :

- schizophrenia in adults and in adolescents aged 15 years and older
- moderate to severe manic episodes in Bipolar I Disorder and for the prevention of a new manic episode in adults who experienced predominantly manic episodes and whose manic episodes responded to aripiprazole treatment
- treatment (up to 12 weeks) of moderate to severe manic episodes in Bipolar I Disorder in adolescents aged 13 years and older

## Budezonid LEK-AM (Budesonidum)

Strength and size: Dry powder inhaler  
- 200 µg and 400 µg x 60 capsules

■ **Budezonid LEK-AM**  
*Budesonidum*

■ ATC: R03D1 (Respiratory System)

■ **INDICATIONS :**

Used in the treatment of mild, moderate, severe persistent asthma and COPD (Chronic Obstructive Pulmonary Disease) in adults and children. For inhalation use.

*Cilostazol*  
**Cilostazol LEK-AM**

Strength and size: 100 mg  
x 30, 60, 100 tablets

■ **Cilostazol LEK-AM**  
*Cilostazol*

■ ATC: B01AC23 (Antithrombotic agents)

■ **INDICATIONS :**

- Cilostazol LEK-AM is prescribed for "intermittent claudication". Intermittent claudication is the cramp-like pain in your legs when you walk and is caused by insufficient blood supply in your legs.
- Cilostazol LEK-AM can increase the distance you can walk without pain since it improves the blood circulation in your legs.

## Clopidix

(Clopidogrelum)

Strength and size: 75 mg x 28 tablets

■ **Clopidix**  
*Clopidogrelum*

■ ATC: B01AC04 (Cardiovascular System)

■ **INDICATIONS :**

An antiplatelet agent, used in conditions related to the heart and acute coronary syndrome.

Used in patients with myocardial infarction (MI), myocardial infarctions known as STEMI (ST segment elevation MI), NSTEMI (Non ST segment elevation MI), and in unstable angina. Indicated in patients after the implantation of coronary stents, including metal stents and drug eluting stents (DES). It is indicated in strokes (in certain situations). Recommended in prophylaxis of thromboembolic complications of atherosclerosis and thromboembolic events in atrial fibrillation.

**Contix**  
Pantoprazolum

Strength and size: 20 mg, 40 mg  
x 14, 28, 84, 112 gastro-resistant coated tablets

■ **Contix**  
*Pantoprazolum*

■ ATC: A02BC02 (Antiulcerants)

## ■ INDICATIONS :

Contix 20 mg

- benign form of reflux oesophagitis
- treatment of GERD (Gastroesophageal Reflux Disease)
- protection of gastric and duodenal mucosa against ulceration, in patients with increased susceptibility, those that are using non-steroidal anti-inflammatory drugs (NAIDs)

Contix 40 mg

- eradication of *Helicobacter pylori* in combined therapy with two antibiotics
- gastric ulcerative disease
- duodenal ulcerative disease
- mild and heavy reflux oesophagitis, as well as GERD (Gastroesophageal Reflux Disease)
- Zollinger-Ellison syndrome and other conditions with hydrochloric acid hypersecretion

Strength and size: 10 mg, 20 mg, 40 mg x 30, 60 tablets

## ■ Corator

*Atorvastatinum*

■ ATC: C10AA05 (Cardiovascular System)

## ■ INDICATIONS :

Corator is used in the treatment of hyperlipidemia. It works by decreasing LDL cholesterol and increasing HDL cholesterol. Corator regulates apolipoprotein B and triglyceride levels. To be used in patients with familial hypercholesterolemia, essential hypercholesterolemia and mixed hypercholesterolemia (type IIa and type IIb).

Prevention of cardiovascular events in adult patients at high risk for a first cardiovascular event, as an adjunct to correction of other risk factors.

## Escitalopram Lekam

(Escitalopramum)

Strength and size: 5 mg, 10 mg, 15 mg, 20 mg  
x 28, 56 tablets

### ■ Escitalopram Lek-Am

*Escitalopramum*

■ ATC:N06AB10 (Nervous system)

### ■ INDICATIONS :

- antidepressant of the selective serotonin reuptake inhibitor (SSRI)
- treatment of major depressive episodes
- treatment of panic disorder with or without agoraphobia
- treatment of social anxiety disorder (social phobia)
- treatment of obsessive-compulsive disorder

**finaster**<sup>finasteridum</sup>

Strength and size: 5 mg x 30, 90 tablets

■ **Finaster**

*Finasteridum*

■ ATC: G04CB01 (Genito Urinary System)

■ **INDICATIONS :**

Finaster treats benign prostatic hyperplasia by reducing clinical symptoms, in order to reduce risk of urine retention and necessity of surgery (prostatectomy) or transurethral resection of prostate.

**foramed**   
*Formoteroli fumaras dihydricus*

**lekam** 

Strength and size: 12  $\mu$ g x 60 capsules

## ■ **Foramed**

*Formoteroli fumaras dihydricus*

■ ATC: R03AC13 (Respiratory System)

## ■ **I N D I C A T I O N S :**

Used in the treatment of mild asthma in adults and children, as well as patients with COPD (Chronic Obstructive Pulmonary Disease). Used in instances of nocturnal shortness of breath due to asthma and COPD exacerbations.

## Memolek

*Memantini hydrochloridum*

Strength and size: 10mg, 20 mg x 28, 56 tablets

### ■ **Memolek**

*Memantini hydrochloridum*

■ ATC: N06DX01 (Other anti-dementia drugs)

### ■ **INDICATIONS :**

Treatment of adult patients with moderate to severe Alzheimer's disease.

Montelukast LEK-AM

Strength and size: 4 mg, 5 mg, 10 mg  
x 28 chewable tablets

## ■ Montelukast Lek-Am

*Montelukastum*

■ ATC: R03J2 (Antileukotriene anti-asthmatic)

## ■ I N D I C A T I O N S :

Montelukast is indicated in the treatment of asthma as add-on therapy in those patients with mild to moderate persistent asthma who are inadequately controlled on inhaled corticosteroids and in whom "as-needed" short acting  $\beta$ -agonists provide inadequate clinical control of asthma. In those asthmatic patients in whom Montelukast is indicated in asthma, montelukast can also provide symptomatic relief of seasonal allergic rhinitis. Montelukast is also indicated in the prophylaxis of asthma in which the predominant component is exercise-induced bronchoconstriction.

**Nobaxin**  
Azithromycinum

Strength and size: 250 mg x 6 tablets,  
500 mg x 2, 3, 6 tablets

## ■ **Nobaxin**

*Azithromycinum*

■ ATC: J01FA10 (Systemic Anti-infectives)

## ■ **I N D I C A T I O N S :**

- infections of the upper respiratory tract: bacterial pharyngitis, tonsillitis, sinusitis
- acute otitis media
- infections of the lower respiratory tract: acute bronchitis, acute exacerbations of chronic bronchitis, mild to moderately severe pneumonia including interstitial
- infections of the skin and soft tissue infections erysipelas, impetigo and secondary pyoderma, erythema wandering - Erythema migrans, acne vulgaris of moderate intensity (only in adults). Sexually Transmitted Diseases: uncomplicated infections caused by Chlamydia trachomatis

# Olzapin

(Olanzapinum)

Strength and size: 5 mg, 10 mg x 28, 56, 90 tablets

## ■ Olzapin

*Olanzapinum*

■ ATC: N05AH03 (Nervous System)

## ■ INDICATIONS :

Olzapin is indicated for the treatment of schizophrenia. Olzapin is effective in maintaining the clinical improvement during continuation therapy in patients who have shown an initial treatment response.

Olzapin is indicated for the treatment of moderate to severe manic episode.

In patients whose manic episode has responded to olanzapine treatment, Olzapin is indicated for the prevention of recurrence of bipolar disorder.

Acidum alendronicum  
**OSTOLEK** 70 mg

Strength and size: 10 mg x 28 tablets, 70 mg x 4 tablets

## ■ **Ostolek**

*Acidum alendronicum*

■ ATC: M05BA04 (Musculo-skeletal System)

## ■ **I N D I C A T I O N S :**

Preparation to be used in postmenopausal osteoporosis, as well as osteoporosis in general. The aim of therapy is to increase bone mass and to improve the mechanical strength of bone. Treatment aims at reducing the risk of the most common fractures of the femur, vertebrae, and ulna.

pulmoterol   
(Salmeterolum)

Strength and size: Dry powder inhaler - 50 µg  
x 60, 90 capsules

■ **Pulmoterol**  
*Salmeterolum*

■ ATC: R03AC12 (Respiratory System)

■ **I N D I C A T I O N S :**

Used in the treatment of mild asthma in adults and children and patients with COPD (Chronic Obstructive Pulmonary Disease). Used in patients with nocturnal shortness of breath due to asthma and COPD exacerbations.

**Risperon**  
(Risperidonum)

Strength and size: 1 mg, 2 mg, 3 mg, 4 mg  
x 20, 60 tablets

■ **Risperon**  
*Risperidonum*

■ ATC: N05AX08 (Nervous System)

## ■ INDICATIONS :

- schizophrenia
- moderate to severe manic episodes associated with bipolar disorders
- short-term treatment of persistent aggression in patients with moderate to severe Alzheimer's dementia unresponsive to non-pharmacological approaches and when there is a risk of harm to self or others
- short-term symptomatic treatment of persistent aggression in conduct disorder in children from the age of 5 years and adolescents with subaverage intellectual functioning or mental retardation diagnosed according to DSM-IV criteria, in whom the severity of aggressive or other disruptive behaviours require pharmacologic treatment

**TRIMEDUCTAN MR**  
(Trimetazidini dihydrochloridum)

Strength and size: 35 mg x 60 modified release tablets

## ■ **Trimeductan MR**

*Trimetazidini dihydrochloridum*

■ ATC: C01EB15 (Cardiovascular System)

## ■ **I N D I C A T I O N S :**

Trimetazidine is indicated in adults as add-on therapy for the symptomatic treatment of patients with stable angina pectoris who are inadequately controlled by or intolerant to first-line antianginal therapies.

# OTC MEDICATIONS (OTC)

OTC MEDICATIONS (OTC)

**ALERZINA**  
(Cetirizine dihydrochloridum)

**Biosteron**  
(Dehydroepiandrosteronum)

 **ibenal  
Max**  
ibuprofenum 600 mg  
tabletki powlekane

**Contix**  
ZRD (Pantoprazolum)

**MAGLEK B6**

**Melatonina**  
(Melatoninum)

## **ALERZINA** (Cetirizini dihydrochloridum)

Strength and size: 10 mg x 10 tablets

### ■ **Alerzina**

*Cetirizini dihydrochloridum*

- ATC: R06AE07 (Antihistamines Systemic)  
CHC: 01E1C

### ■ **I N D I C A T I O N S :**

Symptomatic treatment of chronic and seasonal allergic rhinitis (hay fever), allergic conjunctivitis, chronic idiopathic urticaria.

## Biosteron

(Dehydroepiandrosteronum)

Dose: 5 mg, 10 mg, 25 mg x 30, 60 tablets

### ■ **Biosteron** (Dehydroepiandrosterone)

■ ATC: G03B (Sex Hormones)  
CHC: 05D4C

### ■ **INDICATIONS :**

Biosteron medication is a natural supplement of Dehydroepiandrosterone (DHEA) .

DHEA supplementation combats certain elements such as:

- Sexual dysfunction
- Sleep disorders
- Decreased immunity
- Forgetfulness
- Depression
- Severe menopause and andropause symptoms
- Reduced muscle strength
- Excessive and long-term fatigue, reduced stress resistance

**Contix**  
**ZRD** (Pantoprazolum)

Strength and size: 20 mg x 7, 14  
gastro-resistant coated tablets

■ **Contix ZRD**  
*Pantoprazolum*

■ ATC: A02BC02 (Antiulcerants)

## ■ I N D I C A T I O N S :

Short-term treatment of reflux symptoms (e.g. heartburn, acid regurgitation) in adults.

# OTC MEDICATIONS (OTC)

Strength and size: 200, 400, 600 mg  
x 6, 10, 12, 20, 24, 30, 50, 60, 100

## ■ Ibenal, Ibenal Forte, Ibenal Max

*Ibuprofenum*

■ NSAID

## ■ I N D I C A T I O N S :

Ibenal 200 mg - Pain of various origins, primarily mild to moderate. Eg. migraines, toothache, neuralgia, fever, menstrual pain.

Ibenal Forte 400 mg - Pain of various origins, primarily mild to moderate. Eg. migraines, toothache, neuralgia, fever, menstrual pain.

Ibenal Max 600 mg - Rheumatoid arthritis, ankylosing spondylitis, bursitis, tendinitis, soft tissue injuries like sprains

# OTC MEDICATIONS (OTC)

## MAGLEK B6

Strength and size: 500 mg Magnesium lactate,  
5 mg Pyridoxine x 50, 60 tablets

### ■ **Maglek B6**

*Magnesium lactate, Pyridoxine*

- ATC: A12CC06 (Mineral supplements)  
CHC: 04F3C

### ■ **I N D I C A T I O N S :**

Prevention of magnesium and Vitamin B6 deficiency:

- resulting from insufficient supply in the diet
- related to using diuretics
- in people using a diet rich in saturated fatty acids
- in treatment of increased nerve and muscle excitability, with the tendency for tetany seizures
- in people with coronary disease or cardiac dysrhythmia and magnesium deficiency

# OTC MEDICATIONS (OTC)

## Melatonina

(Melatoninum)

Strength and size: 1 mg x 90 tablets,  
3 mg x 14, 60 tablets,  
5 mg x 30 tablets

### ■ Melatonina LEK-AM

*Melatoninum*

■ ATC: N05CHO1 (Systemic Hormones)

CHC: 13A1C

### ■ INDICATIONS :

Adjunctive in sleep disorders, especially in the elderly. Used in disturbances of the circadian rhythm (sleep – wake cycle), such as jet lag. Regulates the sleep cycle in the blind and sleep adjustments related to work (e.g. night shifts). Also used in patients who have a production deficiency of this hormone.

Copper	1,0 mg	100

\*NRV - Nutrient Reference Values \*\*Daily value not established

## ■ NervoCalm Forte

*Magnesium citrate, Lemon balm leaves extract (Melissa officinalis), L-theanine from green tea leaves (Camelia sinensis), Hop cones extract (Humulus lupulus)*

Strength and size:  
750mg x 10, 20 coated tablets

## ■ INDICATIONS :

A dietary supplement NervoCalm Forte has been designed for people who are exposed to prolonged or periodic stress. They have to function in stressful situations due to the lifestyle that they lead. Thanks to the rich composition of ingredients, NervoCalm Forte provides a bidirectional support of the nervous system: it calms and allows to function normally in the situations of stress.

**Lemon balm leaves extract** helps reduce nervous tension and promotes the maintenance of a positive mood and a state of relaxation

**L-theanine from green tea leaves** has a relaxing effect, at the same time supporting focus, alertness and concentration.

**Hop cones extract** has a calming effect.

**Rhodiola rosea extract** helps the body adapt to the situation of emotional stress, positively affecting the mental and physical wellbeing.

**Magnesium** helps reduce tiredness and fatigue, as well as helps maintain normal psychological functions.

The composition of the recommended daily dose:

Ingredients	Content in 2 tablets	%NRV*
Lemon balm leaves extract	300 mg	-
L-theanine from green tea leaves	200 mg	-
Magnesium	60 mg	16
Hop cones extract	50 mg	-
Rhodiola rosea extract	20 mg	-
Vitamin B1	1,1 mg	100
Vitamin B3	16 mg	100
Vitamin B6	1,4 mg	100
Copper	1,0 mg	100

\*NRV - Nutrient Reference Values

■ **NervoCalm Night (NervoCalm Noc)**

*Hop cones extract, Lemon balm leaves extract, Passiflora incarnate fruit extract*

Strength and size:  
762mg x 20 coated tablets

■ Calming and sleeping supplement (13A1)

■ **I N D I C A T I O N S :**

**NervoCalm Night** dietary supplement has been designed for those with problems falling asleep and having a peaceful sleep and those who live under stress and attempt to achieve peace late in the evening or at night.

**Melissa officinalis leaves extract** helps achieve optimum relaxation and reduces stress, additionally, it calms you down.

**L-theanine from green tea leaves** helps achieve peace and rest. It belongs to amino acids that are naturally present in *Camelia sinensis* leaves. It has calming properties and reduces the effects of stress and anxiety.

**Hop cones extract** makes falling asleep easier, and calms the central nervous system down.

**The Passiflora incarnate fruit extract** supports the state of peace by reducing excitation. It helps maintain a good night's sleep.

Composition and information on ingredients:

Ingredients	Content in 2 tablets
Hop cones extract	400 mg
Melissa officinalis leaves extract	200 mg
L-theanine from green tea leaves	200 mg
Passiflora incarnate fruit extract	20 mg

Strength and size:  
762 mg x 10, 20 coated tablets

## ■ NervoCalm Sleep (NervoCalm Sen)

*Hop cones extract, Lemon balm leaves extract, L-theanine extract, Passiflora extract, Melatonin*

- Calming and sleeping supplement (13A1)

## ■ I N D I C A T I O N S :

Dietary supplement NervoCalm Sleep with Melatonin has been prepared especially for people having difficulty falling asleep and sound sleep, living with nervous tension who want to calm down in the evening and at night.

Composition and information on ingredients:

Ingredient	1 tablet
Hop cones extract	300 mg
Lemon balm leaves	200 mg
Passiflora fruit extract	20 mg
Melatonin	1 mg

Strength and size: 630 mg x 10, 20 coated tablets

## ■ NervoCalm Heart (NervoCalm Serce)

*Lemon balm leaves, L-theanine from green tea leaves, Magnesium carbonate, Hop cones extract, Rhodiola rosea extract, Grape skin extract with resveratrol, Thiamine, Vitamins B3, B6, Copper*

■ Calming and sleeping supplement (13A1)

## ■ INDICATIONS :

Dietary supplement NervoCalm Heart, due to its rich composition of ingredients, supports nervous systems in two ways: calms down and allows for normal functioning in stressful situations, and additionally supports the heart and cardiovascular system.

Composition and information on ingredients:

Ingredient	2 tablets	%NRV*

## ■ SAMPÉLIN

*Acerola fruit extract, Xylitol, Pelargonium sidoides root extract*

■ Cold/flu immunostimulant (01B4)

## ■ INDICATIONS :

**SAMPÉLIN®** for children is based on natural ingredients that act together and support normal functions of the immune system

Natural extracts contained in SAMPÉLIN® syrup support the respiratory system by alleviating symptoms of cough and sore throat, provide relief in the case of irritation of the oral cavity and larynx, and additionally, support the immune system. Besides, thanks to Xylitol the product cares for children teeth by supporting teeth mineralisation.

Description of mechanism of action of syrup ingredients:

- **The Sambucus nigra extract** has a soothing effect on the oral cavity, larynx and throat. It provides relief in case of irritation of these organs.
- **The Pelargonium sidoides root extract** supports the respiratory system in order to alleviate cough and sore throat in a natural way.
- **The acerola fruit extract** is a rich source of **Vitamin C** that supports normal functions of the immune system.
- **Xylitol** is a natural sugar derived from birch tree. It has a beneficial effect on teeth supporting their mineralisation.

120 ml syrup

## ■ SINOS®

*Sambucus nigra flower extract, Verbena herb extract, Gentian root extract*

## ■ Other respiratory cond. (01V1)

## ■ INDICATIONS :

SINOS® for children is based on natural ingredients that provide relief in case of upper respiratory tract irritation and facilitate breathing. It supports normal functions of the middle ear.

Additionally, SINOS® supports the appropriate functions of the body's immune system, and thanks to Xylitol it cares for children's teeth supporting teeth mineralisation.

The **Sambucus nigra flower extract** has soothing properties in case of upper respiratory tract irritation, and additionally, it supports the immune system.

The **Verbena herb extract** has soothing properties in the oral cavity, throat, larynx and vocal cords in case of irritation of these organs

The **Gentian root extract** has body strengthening and stimulating properties, increasing the energy level.

The **Verbascum densiflorum flower extract** soothes the throat, and makes breathing easier. Additionally, it supports the immune system and normal functions of the ears.

The **acerola fruit extract** is a rich source of Vitamin C that supports normal functions of the immune system.

Xylitol is a natural sugar derived from birch tree. It has a beneficial effect on teeth supporting their mineralisation.

## ■ ZATOGRIP

*Sambucus nigra flower extract, Zinc, Verbascum densiflorum flower extract*

Strength and size:  
120 ml syrup

## ■ Cold/flu immunostimulant ( 01B4)

## ■ INDICATIONS :

ZATOGRIP<sup>®</sup> for children is based on natural ingredients that provide relief in case of upper respiratory tract irritation and facilitate breathing.

Additionally, thanks to zinc and vitamin C from acerola fruit ZATOGRIP<sup>®</sup> supports the appropriate functions of the immune system, and thanks to xylitol it cares for children teeth supporting teeth mineralisation.

Description of mechanism of action of syrup ingredients:

**The Sambucus nigra flower extract** has soothing properties in case of upper respiratory tract irritation, and additionally, it supports the immune system.

**The Pelargonium sidoides root extract** supports the respiratory system in order to alleviate cough and sore throat in a natural way.

**The Verbena herb extract** has soothing properties in the oral cavity, throat, larynx and vocal cords in case of irritation of these organs.

**The Verbascum densiflorum flower extract** soothes the throat, and makes breathing easier. Additionally, it supports the immune system and normal functions of the ears.

**The acerola fruit extract** is a rich source of **vitamin C** that supports normal functions of the immune system.

**Zinc** supports normal functions of the immune system.

**Xylitol** is a natural sugar derived from birch tree.

It has a beneficial effect on teeth supporting their mineralisation.

## ■ **I N D I C A T I O N S :**

Moisturizing eye drops 10 ml. The drops contain Sodium hyaluronate in concentration of 0.2%, respectively.

Moisturizing and protective properties of Sodium hyaluronate eliminate sensation of irritation, dryness, burning and sensation of foreign body in the eye, occurring as a result of:

- external factors, i.e. wind, sun, dry air, salt water, smoke, intensive light, air-conditioning, central heating
- long exposure to a computer display radiation
- eye surgery
- conjunctivitis
- using contact lenses

*(Azelaic acid, Panthenol)*

**PelleViTA**<sup>kera</sup>

**PelleViTA**<sup>urea</sup>  
*(Urea, Salicylic acid)*

**Pellevita** <sup>acne</sup>

(Azelaic acid, Panthenol)

Strength and size: 50 ml cream

## ■ Pellevita acne

*10% Azelaic acid and Panthenol*

## ■ Acne treatment (06A1)

In-licensed product

■ Status: Cosmetic. Care cream for skin with a tendency to acne lesions.

## ■ I N D I C A T I O N S :

Inhibits the formation of comedos, prevents the formation of follicular lesions and pustules. It has antioxidant, anti-inflammatory and keratolytic effect. Promotes regeneration of skin, soothes and moisturizes.

Pellevita acne contains lower concentrations of azelaic acid (10%) - which has a lower irritant potential. Additionally, panthenol has soothing effect in case of any further irritation. Better tolerance for sensitive skin, vascular, with a tendency to acne rosacea. The substrate of the cream enhances the moisturizing effect, and reduces the need to use extra moisturizer.

Strength and size: 100 ml lotion

■ **Pellevita kera**

*Urea, Glycolic acid, Lactic acid, Salicylic acid, Panthenol*

■ **Anti-psoriasis (06D1)**

In-licensed product

■ **Purpose:**

Lotion for a scalp and body care. For problematic skin, e.g. within the scalp and body, with symptoms of psoriasis and seborrheic dermatitis.

Improves skin condition of the body and head. Improves skin hydration. Improves skin smoothness.

■ **Properties:**

- light and not greasy consistency
- does not stain
- does not contain fragrance

Regular use of lotion brings care effect

**Pellevita**<sup>urea</sup>

(Urea, Salicylic acid)

Strength and size: 100 ml cream

## ■ Pellevita urea

*20% of Urea and Salicylic acid 2%*

■ Anti-psoriasis (06D1)  
In-licensed product

■ Status: Cosmetic. Skin care cosmetic cream for skin with symptoms of psoriasis.

## ■ INDICATIONS :

Both components heighten the effect of peeling thickened stratum corneum and inhibit hypertrophy of the stratum corneum. The cream softens the skin, moisturizes and reduces surface water loss from the epidermis.

It smoothes rough skin and has keratoplastic, antipruritic and antiseptic effects.
